Redflex Award for the Expanded NSW Mobile Speed Camera Program

Redflex Traffic Systems Pty Ltd, a wholly owned subsidiary of Redflex Holdings Limited, is pleased to announce the award of a tender for the provision of increased mobile speed camera services for the State of New South Wales.

Redflex has been operating the interim program in New South Wales since 2010. This involved the delivery of 930 enforcement hours per month. The expanded program is to deliver 7000 hours per month when fully operational, a percentage of which will be delivered by Redflex.

The interim program delivered a significant reduction in road trauma in New South Wales. We look forward to continuing to work with the Roads and Maritime Services to improve road safety throughout the State.

Redflex Traffic Systems Pty Ltd manufactures and supplies traffic cameras, software processing systems and enforcement services to world-wide markets. Redflex is the market leader in Australia and has either won or is developing significant opportunities in the Middle East, Asia, Africa and Europe.
