

Release to Australian Securities Exchange

10 February 2012

Update to Expectations for first half of FY2012

Further to the announcement on 14 December 2011, directors can now advise that their expectation for the first half result for the current financial year is for a Net Profit Before Tax that exceeds the previous corresponding period's underlying result by approximately 45%. The underlying result for the previous corresponding period of \$7.3 million excludes the impact of the cost of the sale process during that period.

Directors expect to release the half year results on 22 February 2012.
