The City of Duncanville Texas Partners with Redflex to Save Lives

13 February 2006

Building on our momentum across Texas, the City of Duncanville and Redflex Traffic Systems, a subsidiary of Redflex Holdings Limited, have executed an agreement to provide a full turnkey red-light photo enforcement program to help substantially increase public safety.

“We are extremely pleased to announce that with the execution of the Duncanville contract, Redflex has a perfect track record of securing contracts across Texas. Over the last 12 months, we have executed 100% on contracts signed in the great State of Texas. Cities are responding to our superior technology and our proven results as the largest photo enforcement provider not only in Texas but across the USA” Karen Finley, Redflex Traffic Systems Inc. CEO said.

The new contract is for a term of three years with three, one-year automatic extension options. The contract scope is for the implementation of red light photo enforcement in up to 15 intersections.

Located in Dallas County with a population in excess of 36,000, Duncanville is situated in the Dallas-Ft. Worth area.

Duncanville Police Chief Jack Long said “I have been interested in automated red light enforcement for some time. We did a search of companies that provided this type of service and selected Redflex Traffic Systems. Redflex has been very professional and extremely helpful during this process. I am excited about the partnership we have built with Redflex over the last several months. I am looking forward to working closely with Redflex as we reduce red light violations, saving lives and protecting property.”

Redflex Traffic Systems Inc has contracts with 97 cities world-wide and 81 USA cities under contract and is the largest provider of digital red light and speed enforcement services in North America. With photo speed programs in 8 states and photo red-light programs across 16 states, Redflex has led the market in installed systems, installation rate and market share over the past 12 months.
