REDFLEX Executes New Speed and Red Light Enforcement Contract – Morristown, Tennessee

15 August, 2008

Redflex Traffic Systems, Inc, a wholly owned subsidiary of Redflex Holdings Limited, is pleased to announce the contract execution with the City of Morristown, Tennessee.

Located in eastern Tennessee, Morristown supports a daytime population in excess of 45,000 and is the Hamblen County seat.

The contract calls for combination speed-on-green and red-light enforcement systems at up to 10 locations. The contract term is three years with two, two-year renewals.

The contract award resulted from a competitive tender process.

“Communities across Tennessee are rapidly adopting the REDFLEXspeed solution for its proven effectiveness. As the largest speed enforcement solution provider in the USA, REDFLEX offers tailored solutions that address the specific needs and challenges of each of our partner communities. This is most evident when reviewing the public safety benefits that are documented by cities that use the REDFLEXspeed solution. For example, other Tennessee cities operating REDFLEXspeed programs have achieved amazing reductions in crashes, some seeing more than a 50% reduction at enforced locations.” said Karen Finley, CEO Redflex Traffic Systems.

Redflex Traffic Systems, Inc has contracts with more than 200 U.S. cities and is the largest provider of digital red light and speed enforcement services in North America. With photo speed programs in nine states and photo red light programs across 20 states, REDFLEX has consistently led the market in contract wins, system installation rates and market share.
