REDFLEX Announces Contract for up to 50 Photo Enforcement Systems - Elgin, Illinois

4 September 2008

Redflex Traffic Systems, Inc, a wholly owned subsidiary of Redflex Holdings Limited, is pleased to announce the contract award by Elgin, Illinois for up to 50 red light photo enforcement systems.

Elgin, Illinois

Elgin sits northwest of Chicago, Illinois, on the Fox River. With a population estimated at over 100,000, it is the eighth largest city in the state.

The contract calls for up to 50 red light photo enforcement systems. The award resulted following a competitive bid process whereby Redflex was chosen unanimously by the deciding committee in Elgin. The contract term is five years with a two-year renewal and an option for a two-year extension.

"Elgin has the potential to make a significant public impact with its commitment to a large-scale photo enforcement program. Our contract with Elgin builds upon the recent announcement of Redflex programs in Blue Island and Naperville and furthers our objective of improving safety at intersections across the state of Illinois," said Karen Finley, CEO of Redflex Traffic Systems.

Redflex Traffic Systems, Inc has contracts with more than 200 U.S. cities, and is the largest provider of digital red light and speed enforcement services in North America. With photo speed programs in nine states and photo red light programs across 20 states, REDFLEX has consistently led the market in contract wins, system installation rates and market share.
