

Redflex Traffic Systems Releases Statement about Employee Fatality

22 April 2009

On Sunday, April 19, REDFLEX employee Douglas Georgianni was shot and killed whilst performing his duties on the Loop 101 Freeway in Phoenix, Arizona.

Redflex Traffic Systems, Inc., a wholly owned subsidiary of Redflex Holdings Limited, is under contract with the Arizona Department of Public Safety ("DPS") to operate mobile photo enforcement vehicles to enforce speed limits on state roads. Georgianni was a REDFLEX photo enforcement vehicle operator.

"The entire REDFLEX family is grief-stricken for Doug and his loved ones," said Karen Finley, CEO of Redflex Traffic Systems. "We continue to mourn this horrific loss as we extend our support to his family."

Police arrested a man on April 20th in connection with the fatal shooting, and are considering bringing appropriate charges for murder. The arrest came after the shooter's vehicle was captured on streaming video taken by the mobile photo enforcement vehicle, and then identified by some outstanding police work.

All mobile photo enforcement vehicles operated by REDFLEX employees have been removed from the state of Arizona as Phoenix Police Department and DPS investigate the shooting. Other photo enforcement vendors operating in Arizona have also temporarily suspended mobile photo enforcement operations. REDFLEX photo enforcement vehicles in Louisiana, the only other state where the vehicles are operated by REDFLEX employees, have been put on hold until further notice whilst the consequences of this tragic act are considered.
