Redflex wins large 'Automated Enforcement System' contract in Malaysia

Redflex Traffic Systems Pty Ltd, a wholly owned subsidiary of Redflex Holdings Limited, is pleased to announce the signing of the contract for the supply of camera systems, back office software and related services for the Automated Enforcement System (AES) project in Malaysia.

Beta Tegap Sdn Bhd, Redflex's distributor in Malaysia, has signed a Build, Own, Operate and Transfer contract with the Malaysian Government, which is subject to finance, for the area throughout central and south Malaysia, encompassing the main corridor between Kuala Lumpur and Johor Bahru.

The award of this contract comes after extensive competitive trials run by the Ministry of Transport, the Government of Malaysia's agency responsible for the implementation of the AES project. Redflex Traffic Systems Pty Ltd has signed a contract with Beta Tegap Sdn Bhd to provide state-of-the-art speed enforcement technology for the program.

For Redflex the contract is worth over \$50 million and is to provide 450 fixed speed cameras, 140 mobile cameras, extensive enterprise back office software, and implementation services. The Malaysian Government's AES Implementation Plan includes a proof-of-concept stage followed by a progressive rollout of the cameras.

Ricardo Fiusco, General Manager of Redflex Traffic Systems Pty Ltd said, "The contract is a key milestone for our strategy in Asia and we will use its success as basis for future growth in the region".

Redflex Traffic Systems Pty Ltd manufactures and supplies traffic cameras and processing systems to world-wide markets. Redflex is the market leader in Australia and has either won or is developing significant opportunities in the Middle East, Asia, Africa and Europe.

Redflex is a Public Safety company dedicated to saving lives and improving quality of life in communities through innovative technologies and strategic service partnerships with community and government organisations.
